BRAIN RESEARCH

VOL. 528 NO. 2 | CONTENTS | 1 OCTOBER 1990

Announcement from the Publisher iii

Research Reports

Chronic neurochemical and behavioral changes in MPTP-lesioned C57BL/6 mice: a model for Parkinson's disease
E. Sundström, A. Frederiksson and T. Archer (Sweden) 181

Cyclic AMP-induced shape changes of astrocytes are accompanied by rapid depolymerization of actin
J.E. Goldman and B. Abramson (U.S.A.) 189

5-HT_{1D} receptors in the guinea pig brain: pre- and postsynaptic localizations in the striatonigral pathway
C. Waeber, L. Zhang and J.M. Palacios (Switzerland) 197

5-HT_1 receptor binding sites in the guinea pig superior colliculus are predominantly of the 5-HT_{1D} class and presynaptically located on primary retinal afferents
C. Waeber and J.M. Palacios (Switzerland) 207

Extracellular ions during veratridine-induced neurotoxicity in hippocampal slices: neuroprotective effects of flunarizine and tetrodotoxin
D. Ashton, R. Willems, R. Marrannes, A. Wauquier and P.A.J. Janssen (Belgium) 212

Selective stimulation of kainate but not quisqualate or NMDA receptors in substantia nigra evokes limbic motor seizures
R. Maggio, U. Liminga and K. Gale (U.S.A.) 223

Role of central tachykinin peptides in cardiovascular regulation in rats
Y. Takano, A. Nagashima, T. Hagio, K. Tateishi and H. Kamiya (Japan) 231

Correlations between unit firing and EEG in the rat olfactory system
F.H. Eeckman and W.J. Freeman (U.S.A.) 238

Rapid and localized alterations of neuropeptide Y in discrete hypothalamic nuclei with feeding status
B. Beck, M. Jhanwar-Uniyal, A. Burlet, M. Chapleur-Chateau, S.F. Leibowitz and C. Burlet (U.S.A.) 245

Expression of statin, a non-proliferation-dependent nuclear protein, in the postnatal rat brain: evidence for substantial retention of neuroglial proliferative capacity with aging
H.M. Schipper and E. Wang (Canada) 250

Respiratory and cardiovascular effects of tetrodotoxin in urethane-anesthetized guinea pigs
F.-C.T. Chang, B.J. Benton, J.L. Salyer, R.E. Foster and D.R. Franz (U.S.A.) 259

Medial basal hypothalamic monoamine activity associated with intracerebroventricular *p*-chlorophenylalanine-induced hyperphagia
L.J. Holmes, L.H. Storlien and G.A. Smythe (Australia) 269

Phenylephrine-induced antinociception: investigations of potential neural and endocrine bases
L.R. Watkins, C.L. Thurston and M. Fleshner (U.S.A.) 273

Axoplasmic transport of mitochondria in cultured dorsal root ganglion cells
T. Takenaka, T. Kawakami, N. Hikawa and H. Gotoh (Japan) 285

Characterization of [^{125}I-Tyr^{10}]human growth hormone-releasing factor(1–44) amide binding to rat pituitary: evidence for high and low affinity classes of sites
T. Abribat, L. Boulanger and P. Gaudreau (Canada) 291

Effects of L-tryptophan and other amino acids on electroencephalographic sleep in the rat
M.J. Bakalian and J.D. Fernstrom (U.S.A.) 300

Short Communications

The effect of aging on the D_1 dopamine receptors in human frontal cortex
J. de Keyser, J.-P. De Backer, G. Vauquelin and G. Ebinger (Belgium) 308

Calbindin D28k-containing splanchnic and cutaneous dorsal root ganglion neurons of the rat
H. Kashiba, E. Senba, Y. Ueda and M. Tohyama (Japan) 311

Selective localization of striatal D_1 receptors to striatonigral neurons
M.B. Harrison, R.G. Wiley and G.F. Wooten (U.S.A.) 317

Ethanol enhancement of a calcium-activated potassium current in an identified molluscan neuron
B.W. Madsen and R.O. Edeson (Australia) 323

Most somatostatin-immunoreactive neurons in the rat fascia dentata do not contain the calcium-binding protein parvalbumin
R. Nitsch, C. Leranth and M. Frotscher (F.R.G., U.S.A.) 327

Lesions producing REM sleep without atonia disinhibit the acoustic startle reflex without affecting prepulse inhibition
M.-F. Wu, J.M. Siegel, M.N. Shouse and E. Schenkel (U.S.A.) 330

Monodendritic neurons: a cell type in the human cerebellar cortex identified by chromogranin A-like immunoreactivity
D.G. Munoz (Canada) 335

Chronic testosterone propionate treatment decreases the concentration of [^{3}H]quipazine binding at 5-HT_3 receptors in the amygdala of the castrated male rat
S.D. Mendelson and B.S. McEwen (U.S.A.) 339

(contents continued on p. 360)

(contents continued)

Electrophysiological properties of frog spinal dorsal horn neurons and their responses to serotonin: an intracellular study in the isolated hemisected spinal cord
H. Tan and V. Miletic (U.S.A.) 344

The chick retinal melatonin receptor revisited: localization and modulation of agonist binding with guanine nucleotides
J.T. Laitinen and J.M. Saavedra (U.S.A.) 349

Carnosine-, calcitonin gene-related peptide- and tyrosine hydroxylase-immunoreactivity in the mouse olfactory bulb following peripheral denervation
S. Biffo, R. DeLucia, B. Mulatero, F. Margolis and A. Fasolo (U.S.A.) 353
